

MANSHI KUMARI

Apprentice — IT Product Engineering R&D

+91-9905054086 | keshrimanshi071@gmail.com | Jalandhar, Punjab | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Bachelor's degree holder in Engineering (Computer Science, Cybersecurity) with a strong willingness to learn and grow, and a basic understanding of relevant tools and technologies including MS Office and programming basics (Python, SQL). Brings an analytical and problem-solving mindset, attention to detail, and organizational skills developed through hands-on academic projects and team leadership. Comfortable supporting data analysis, documentation, and reporting tasks, collaborating with cross-functional teams, and maintaining accurate records with timely updates. Motivated to gain hands-on experience on real-world projects, learn industry tools and processes, and build foundational technical and business skills as an Apprentice in IT Product Engineering R&D.

RELEVANT SKILLS

- Tools & Technologies: MS Office (Word, Excel, PowerPoint), Python, SQL (MySQL, Oracle SQL), Git, basic programming and query optimization
- Data & Reporting: Data analysis, data cleaning, documentation, reporting, record maintenance, timely task updates
- Professional Skills: Analytical and problem-solving mindset, attention to detail, organizational skills, strong willingness to learn and grow
- Collaboration: Good communication and interpersonal skills, ability to work in a team environment, cross-functional collaboration
- Process: Adherence to organizational policies, quality standards, and best practices; SDLC and Agile exposure

EXPERIENCE

Programming Trainee | Programming Pathshala

July 2023

- Assisted in day-to-day project activities, applying programming basics (Python, Pandas, NumPy) to support data processing tasks
- Collaborated with mentors and peers in a team environment to contribute to discussions and complete project deliverables
- Maintained accurate records of tasks and adhered to project quality standards and timelines

Team Manager | Tachyons Student Technical Club, LPU

- Participated in and led team meetings, coordinating tasks and timelines across a 20+ member team
- Collaborated with cross-functional student teams to support event and project deliverables

RELEVANT PROJECTS

Task & Access Management System | Python, Flask, MySQL, RBAC

- Supported project documentation and reporting through admin activity logging to maintain accurate, timely records

LPU Courier Finder | Python, MySQL

- Applied basic programming and query tools for efficient data analysis, retrieval, and reporting

CERTIFICATIONS

- Foundations of Project Management — Google | Google Data Analytics Professional Certificate
- SQL for Data Science — Great Learning | IBM Cloud Essentials — IBM
- Effective Communication — Coursera | Red Hat System Administration (RH124)

EDUCATION

B.Tech, Computer Science Engineering (Cybersecurity) | Lovely Professional University, Phagwara | CGPA: 6.33
May 2025

Senior Secondary Education | Ranvijay Smarak Int Maha Vidyalaya, Bokaro | 64%

June 2021
